Organisational Health Check!

Service Outcomes and Performance Summary

Like everyone who has a regular health check, at the Aboriginal and Torres Strait Islander Community Health Service Brisbane Limited we are committed as an organisation to our own health checks to let you know how we have been going over the past 12 months.

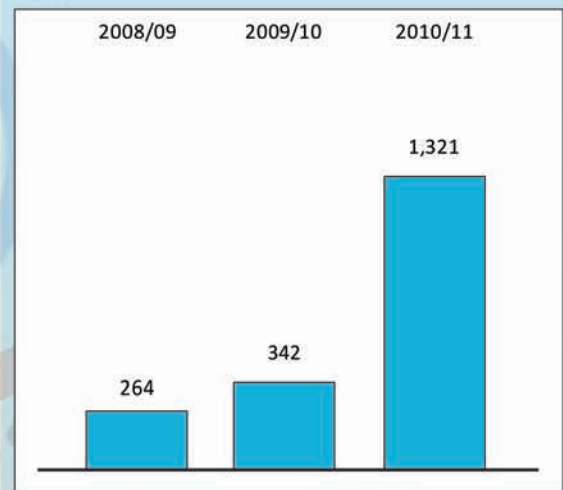

Clinical Services

A. We are committed more than ever to meeting the health needs of our community.

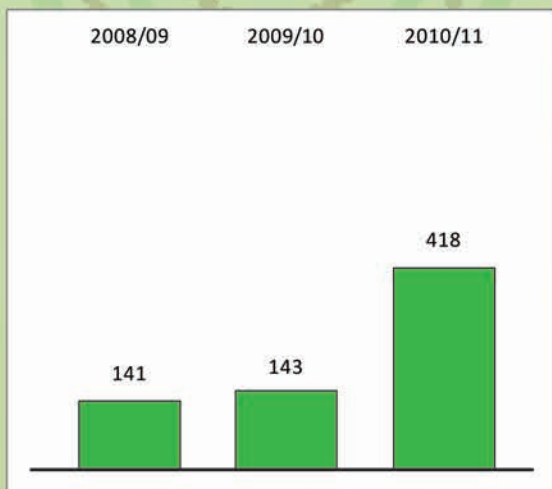

Patient visits to Doctors Increased

B. We are doing more health checks.

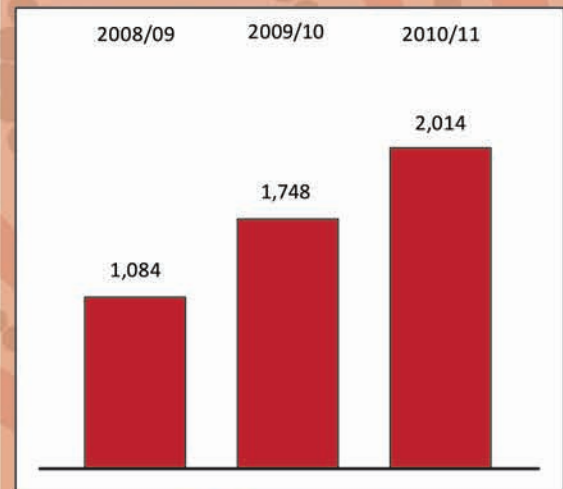

Health Assessments Increased

C. We are providing more support to patients to manage their chronic disease.

GP Management Plans Increased

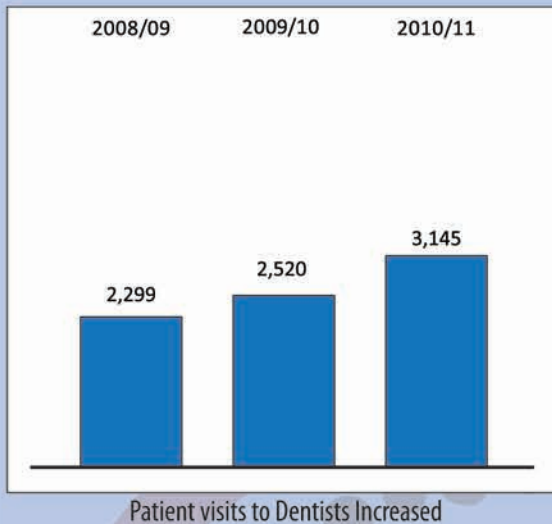

D. We are attracting new patients to our clinics.

New Patients Increased

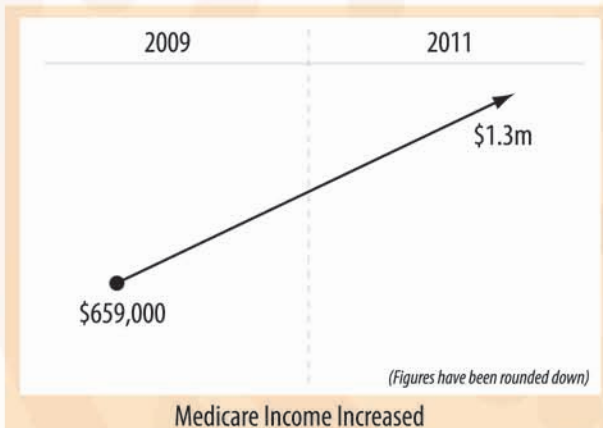

E.

We are also addressing oral health care through our Dental Services.

G. Financial Improvements

We are working hard to deliver a sustainable service for the future. This is evidenced by the growth in our medical revenue.

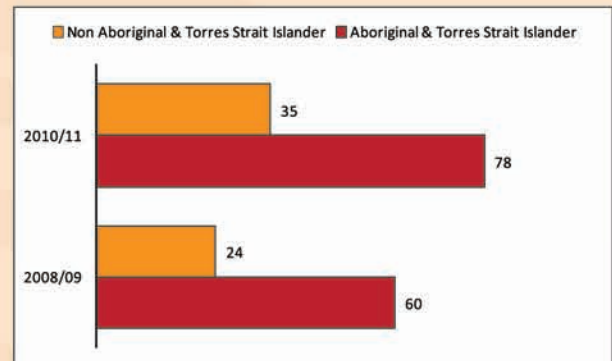

We also secured additional funds of approx \$3.3m to provide services over the next 3 years. Long term funding agreements to 2014 are now established with Commonwealth and State Government departments.

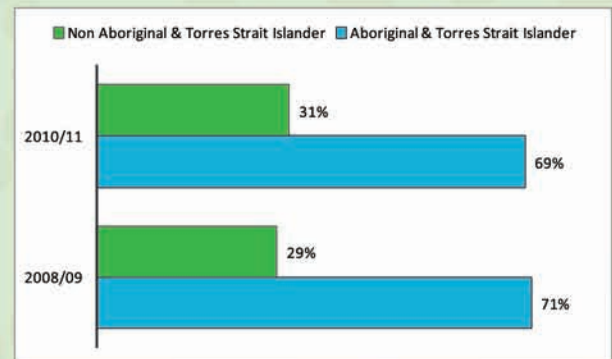

F. Employment

We continue to employ staff with the necessary skills and experience to provide a professional service to the community. This includes maintaining our commitment of providing employment opportunities for Aboriginal and Torres Strait Islander people.
